MINNEAPOLIS, May 17, 2022 (GLOBE NEWSWIRE) -- [Clearfield, Inc.](#) ("**Clearfield**") (**NASDAQ: CLFD**), the specialist in fiber management and connectivity platforms for communication service providers, has entered into a definitive agreement to acquire Finnish company [Nestor Cables Oy](#) ("Nestor"), a leading developer and manufacturer of fiber optic cable solutions. The pending acquisition follows a long-standing, synergistic relationship between Clearfield and Nestor, who have worked together for over a decade. The acquisition is expected to be accretive to Clearfield earnings.

Nestor Overview

Nestor was founded in 2007 in Oulu, Finland, by cable technology professionals. Its product portfolio includes fiber optic cables, connectivity accessories for fiber optic networks and instrumentation, and the Nestor Optimus product family for microduct networks. Nestor offers its customers complete solutions for fiber optic networks, including fiber to the home (FTTH) and fiber to the premises (FTTP) applications.

Nestor has a strong market position in Finland as a supplier of optical fiber cabling. The company also exports many of its products to the European continent, accounting for approximately 30% of its annual revenues. Nestor operates two production facilities and has customers in more than 50 countries.

Strategic Rationale

Since 2012, Nestor has supplied fiber optic cables for Clearfield's high-quality FieldShield product line. This strategic acquisition will enable Clearfield to vertically integrate the supply of its fiber optic cables to meet future customer demand. Furthermore, Clearfield anticipates leveraging the deep technical expertise of the Nestor team, who have decades of optical experience, to extend the available supply of FieldShield fiber into the North American market. Clearfield expects to open optical fiber production in its Mexico facility and begin production of optical cable in North America in early calendar year 2023.

Concurrently, Nestor will continue to service all of its existing customers throughout Finland and other European countries. Clearfield is excited to bring its fiber management solutions to Nestor's customers and prospects in the European market. In 2021, Nestor generated EUR €31.7 million in revenue under Finnish Accounting Standards.

Acquisition Summary

The value of the transaction including fees is approximately US \$23 million. Clearfield expects to fund the acquisition through its credit facility. The transaction is expected to close in a few months and is subject to customary Finnish regulatory approvals. Upon close of the transaction, Nestor will be operated as a subsidiary of Clearfield.

Additional details regarding the transaction can be found in the Company's Current Report on Form 8-K, filed today and available in the Investor Relations section of Clearfield's website [here](#).

Management Commentary

"The acquisition of Nestor is a significant milestone for Clearfield," said Company President and CEO Cheri Beranek. "Nestor has been a wonderful company to work with over the last 10 years, and we are thrilled to be adding them to our team. Nestor's focus on providing its customers with reliable and flexible deliveries, quick reaction times, and operational efficiency is entirely aligned with Clearfield's company culture. Moreover, Nestor employees have deep expertise in fiber optical development and manufacturing, with many employees who gained their skills with the production of optical cable by Nokia years ago. We are excited for the potential opportunities afforded by this acquisition, namely the ability to leverage their fiber optic cable expertise in our own manufacturing facility in Mexico and, in the longer term, evaluate the opportunity to enter the European market with our fiber management solutions."

Jarmo Rajala, President and CEO of Nestor, added: "Clearfield has been a fantastic partner to Nestor Cables for many years. As a true leader in the growing Community Broadband space, we are delighted to join Clearfield at this pivotal moment for the fiber broadband industry. We look forward to supporting the expansion of FieldShield fiber availability in North America as the demand for fiber continues to grow exponentially."
